

# PRODUCT INFO

## **FAST CLEAN™** Product # 94040

**Rapidly Cleans Fuel Injectors and Intake Valves  
to Reduce Emissions & Improve Drivability**

### THE PROBLEM:

Over time, all fuel systems develop carbon and other deposits that create drivability problems, such as rough idling, knocking and hesitation. In addition, a dirty fuel system causes increased emissions, decreased performance and reduced fuel economy.

### THE SOLUTION:

**PROTEX by BARDAHL® Fast Clean™** is formulated with the latest PEA (Poly Ether Amine) fuel additive chemistry to remove harmful deposits from the injectors, intake valves and combustion chamber. This solution provides a “one tank” clean-up of the fuel injectors and intake valves that improves drivability, restores power, reduces emissions and improves fuel economy. It removes combustion chamber deposits to reduce knocking due to an octane requirement increase (ORI). The formulation contains no alcohol and is safe to use in all gasoline and ethanol blends up to E85.

### THE BENEFITS:

- ⇒ Removes carbon deposits, varnish and other deposits from the injectors and intake valves
- ⇒ Reduces drivability problems by eliminating stalling, hard starting and rough idling
- ⇒ Improves fuel economy, restores performance and decreases emissions
- ⇒ Removes combustion chamber deposits to reduce knocking
- ⇒ Use to help pass an Emissions Test

### DIRECTIONS:

Add one bottle to the tank prior to filling-up with fuel. One 11 oz. bottle treats up to 20 gallons (75 liters) of gasoline. Use at every oil change or at 3,000 mile intervals. Dispose of any used or unused solution and container in accordance with the local, state and federal regulations.

### PRODUCT SPECIFICATIONS:

Product #	94040
UPC Code	0 76906 94040 5
Size	11 oz (325 ml)
Case Pack (Qty / Wt)	12 / 10 lbs
Case UPC	30076906940406
Color	Light Amber
Specific Gravity	0.87
Flash Point	>141°F / >60.5°C
